

**APPLICATION FOR RELEASE TIME**

Aberdeen School District Policy 678 permits students in grades 9-12, with the permission of their parents/guardians, to be excused from school for a period not exceeding five (5) class hours in each week or not exceeding one hundred sixty-five (165) hours during any one school year for religious or other purposes. At its discretion, the District may also permit release time for students in grades kindergarten through grade 8, with parent/guardian permission. This release time application form must be received by the student’s school before the student will be permitted to leave school grounds during the school day to attend a release time program. Application forms must be resubmitted each school year. The following rules apply to students participating in a release time program:

- Participation in release time does not reduce minimum graduation requirements.
- No credit will be awarded by the District for completion of courses during release time for religious purposes.
- At the discretion of the Board of Trustees, credit may be granted for release time activities that are not religious in nature. Factors which the Board may consider include, but are not limited to, the credentials of the instructor, the number of hours of instruction, and the availability of similar instruction in the District’s schools.
- The District is not liable for any injury, act, or event occurring while the student participates in the release time program.
- The District does not provide transportation to or from release time programs and is not liable or responsible for the health, safety, and welfare of students while they are being transported to and from a release time program.
